Multiple Devices/WiFi If you want to use multiple devices or WiFi you have to deploy a (WiFi) router (not hotspot). Please **avoid** buying a DSL router. This device type only works in case of an additional WAN port and comes at a higher cost.

Traffic limit There is a traffic limit (currently 3 GiB) per day since the primary purpose of the network is research and education. Excluded are connections within the student network, to the TU Dresden and the HTW Dresden, not their VPN and login servers. Any unused data volume will be saved till a maximum number of 63 GiB. You can always check your traffic at <https://wh12.tu-dresden.de/traffic-o-meter.html>
The day changes at 00:00 o'clock, this is at midnight of german local time.

Changing the MAC-Address If you want to use a different MAC address you need to brief us (see Contact Us).

Subtenants You pay for your membership not for the network access. Therefore subtenants must become members as well and are not allowed to simply use the main tenant's network access. Remember: If you let someone else use your network access you are liable in first place for his or her actions. We offer a silent membership for the main tenant.

Moving between AG DSN serviced dormitories If you are moving within AG DSN serviced dormitories you use this form as well but check "moving from AGDSN serviced dormitory". Please note: you are not required to pay again. We will accept the payment of the current semester regarding another AG DSN dormitory.

Moving Out/Resign Please brief us when you move out and resign (see Contact Us).

Contact Us If you have any questions or problems write an email to support@wh12.tu-dresden.de or come to our office in the basement of Hochschulstraße 46. The office will be opened on Mondays and Thursdays from 7pm to 7:30pm. Office hours may change during semester break. Please check our website or posted notices at our office door.

Participate

The student network was once created and is still maintained by students. If you are interested in our work please don't hesitate to visit us at our office. There are many ways of contribution to our cause without the need of being a computer science engineer. Just to mention some possible of contributions: Administration and finances, network maintenance, software development and many more. Besides, you can add some extra extracurricular activity to your c. v. and have the opportunity to see and work with usually hidden technology. We would be happy to welcome you with us. Be our guest at our office hours or the weekly meeting, Wednesday 20:00, in our office.
